

Pad, Power Check with Noise Suppressor. FAC: 1131

CATCODE: 116665

OPR: AF/A4L

OCR: AFCEC/COS

1.1. Description. The Power Check Pad with suppresser is the prime facility on which operational checks of jet engines are performed. Unsuppressed pads are used as back-up or interim facilities. The metal building (often referred to as the “Hush House”) is equipment; the pad is the concrete that the building protects.

1.2. Requirements Determination. The suppressor and associated devices are supplied as items of Government Furnished Equipment (GFE). Warner Robins Air Logistics Center (WR-ALC) is designated as inventory manager responsible for equipment programming, procurement, and criteria used in programming and constructing support items. For additional information see *Hush House Site Planning Bulletin*; available digitally at: www.AFCEC.af.mil.

1.3. Scope Determination. See *Hush House Site Planning Bulletin* and paragraph 6-9 of UFC 3-260-01.

1.4. Dimensions. See *Hush House Site Planning Bulletin* and paragraphs 6-9 in UFC 3-260-01.

1.5. Design Considerations. See *Hush House Site Planning Bulletin* and paragraphs 6-9 in UFC 3-260-01.
