

Liquid Fuel Stand, Unloading. FAC 1261

CATCODE: 126926

OPR: AF/A4LE

OCR: AFCEC/COS, AFPET/PTOT

1.1. **Description.** Bulk fuel storage facilities may be supplied with fuel by tank truck, tank car, or both. Offload facilities include direct offload, drop tank, and packaged skid. See UFC 3-460-01 for guidance.

1.2. **Requirements Determination.** For general guidance see UFC 3-460-01.

1.3. **Scope Determination.** For general guidance see UFC 3-460-01.

1.4. **Dimensions.** For general guidance see UFC 3-460-01.

1.5. **Design Considerations.** At facilities with pipeline or water transport as their principal supply source, provide tank truck or tank car deliveries as a secondary supply source. Tank truck deliveries are the most common method. However, special transportation considerations or changing circumstances may make the use of rail facilities desirable. Therefore, at an activity with railroad service, arrange a tank truck receiving facility so that the system can be easily and economically extended to the existing rail spur.
